

# 3<sup>rd</sup> International Conference Functional Integrated *nano* Systems

22 - 24 November 2017, Graz / Austria

**nanoFIS 2017** intends to contribute to challenges and topics of European Micro- & Nanoelectronics and to increase visibility in particular in the More-Than-Moore domain.

**nanoFIS 2017** focuses on implementation of Key Enabling Technologies for Novel Device Development and High Performance System Integration.

## CALL FOR PAPERS

You are cordially invited to submit your novel R&D results related to the following topics.

Technical program will consist of key note and invited lectures, contributed oral and poster presentations.

**nanoFIS 2017** addresses scientists, researchers and engineers from industry as well as academia throughout the world.

## TOPICS

- ADVANCED FUNCTIONAL MATERIALS
- NANODEVICES & NANOSYSTEMS
- SYSTEM INTEGRATION & PACKAGING
- NANOANALYTICS & RELIABILITY
- SMART MANUFACTURING PROCESSES

## CONFIRMED KEY SPEAKERS

Jo De Boeck, imec (Belgium)  
Chul-Hong Kim, LG Display (Republik of Korea)  
Francis Balestra, CNRS, IMEP-LAHC (France)  
Christofer Hierold, ETH Zürich (Switzerland)  
Peter Ramm, EMFT - Fraunhofer Research (Germany)  
Gottfried Strasser, TU Vienna (Austria)  
Maikke Taklo, SINTEF Digital (Norway)

*(more will be added permanently)*

## EXHIBITION

**nanoFIS 2017** serves as an excellent platform to present your company/institution, to promote your product portfolio and to establish direct links to a broad audience of experts.

## MCL - POSTER AWARDS 2017

MCL - Poster Awards are intended to recognise outstanding research presented.

## MATERIALS TODAY: PROCEEDINGS

All contributors have the possibility to submit a full paper (peer-review process) which will be published

**nanoFIS 2017** is jointly organized by the **Materials Center Leoben Forschung GmbH (MCL)**, one of the leading research companies in Austria, working in the field of materials engineering and technology, and **Techkonnex - High-Tech Promotion**.
